

DATA SHEET

"Cincom was one of a very few products that could even meet our criteria and is, by far, the most flexible and intuitive product we saw."

- Randy Wissinger, Vice President of Finance, Dayton Progress

"Cincom is a provider, who couples powerful technology with efficient and professional service, and that's exactly what Siemens was looking for."

- John Larabee, Manager, Engineering Systems, Siemens Energy and Automation

"We realized that new software was going to be required, and were impressed with Cincom's Quality Management solution and its benefits to improve our in-house capability."

- Lorrie Wise, Quality Engineering Supervisor, Cubic Defense Systems

Cincom helps complex manufacturers build competitive advantage by simplifying their processes

Over the past 35 years, Cincom has worked with thousands of manufacturers in industries ranging from aerospace and defense to industrial equipment, solving their most complex business problems. The result has been high-value, low-risk solutions that deliver rapid ROI.

Here are just a few examples of the benefits Cincom delivers these manufacturers:

Siemens Energy and Automation – a leading manufacturer of above NEMA motors

- Certified performance data generation cut from 4-6 weeks to less than one hour.
- 100% of configured motors are buildable.
- Reduced quotation times that had ranged from two hours to four days, to just minutes.
- Capture of intellectual capital (the knowledge Siemens' engineers had of their products).

Cubic Defense Systems – a manufacturer of military training systems and equipment

- 50% reduction in turnaround time for approval of nonconformance and corrective action.
- Reduction in time and resources by eliminating the need to compare information from two different systems.
- New and improved quality processes supported by Cincom's Quality Management solution.
- Improved compliance with government and customer documentation requirements.
