

DATA SHEET

Gain access to information, tools and educational opportunities about the Cincom ADDS technologies not available to the general public.

Cincom Business Intelligence Solutions™ provides a complete, end-to-end solution for business intelligence to meet the needs and budgets of small and mid-sized companies. Packages include:

- CincomBI™ for the IBM Smart Market
- CincomBI for the Mid-Market
- CincomBI for SUPRA®

MANTIS® is a complete, beginning-to-end rapid application development system that utilizes the latest Open Source technologies (XML, SOAP, Eclipse, etc.) and provides advanced capabilities for both the developer and the end-user.

SUPRA Server PDM maintains data and coordinates database access for high-volume, online transaction processing. The SUPRA package includes: the SUPRA Relational Access Kit, Windows Utilities and backup and recovery tools.

SUPRA Server SQL is an advanced, ANSI-compliant relational database management system for the deployment of high-performance, data access applications.

"Cincom is really in the customer-service business. We just happen to provide software and software-powered business solutions."

– Thomas M. Nies
CEO, Cincom Systems, Inc

Making the Most of Your Relationship with Cincom

Maximize Your Application Development and Database Investment through Your Cincom Collaborative Community

The Cincom Collaborative Community, also known as the CCC, enhances communication between the users of products and services and Cincom through the sharing of ideas, knowledge and experience.

Joining the CCC will maximize your investment as a user of Cincom's Application Development and Database Solutions (Cincom BI, AD/Advantage®, MANTIS and SUPRA) – while enhancing Cincom's commitment to create and maintain strong, high-quality products and customer relationships.

Activate your complimentary membership by visiting the Cincom Collaborative Community website at MyCincom.com.

Become a Member of the Cincom Collaborative Community and Reap the Benefits

The sooner you become a CCC member, the faster you will be able to realize the CCC's valuable benefits, including:

- Provide greater business value to your company through an enhanced understanding of your Cincom software solution.
- Learn about unique business solutions that other Cincom clients have developed through downloadable success stories.
- Upgrade your industry position by contributing to the CCC knowledge base.
- Discover detailed technical and business topics by joining focused interest and industry groups.
- Hear the latest product and industry developments.
- Utilize "MySupport" to gain access to Cincom product solutions and support professionals.
- Gain the opportunity to provide input to Cincom and the CCC via the web.
- Secure early access to selected Cincom product plans.

About Cincom

For more than 40 years, Cincom's software and services have helped thousands of clients worldwide simplify the management of complex business processes. Cincom specializes in the areas of business where simplification brings the greatest value to managers who want to grow revenue, control costs, minimize risk and achieve rapid ROI better than their competitors.

Cincom serves clients on six continents, including such clients as BMW, Citibank, Boeing, Federal Express, Ericsson, Penn State University, Milacron, Siemens, Rockwell Automation and Trane.

User Quotes

*"Cincom produces a stable and very productive development tool in **MANTIS** and has always supported it very well. Cincom has also been very responsive. In fact, they seem to anticipate what we need and work toward that need. We are extremely pleased to be a customer of Cincom."*

*"I would underscore the reliability and scalability of **SUPRA**. Over the last few years, we have exponentially added more transactions and users to the system. **SUPRA** has kept up the entire way. It has not only supported the massive increase in users, but the increase in transaction processing as well."*

*"From design to production, total elapsed time was about two months. I was amazed that we could get the **SUPRA SQL** system up and running in such a short amount of time."*

*"We recognized that Cincom had **Business Intelligence** tools that we could utilize in our implementation that would help us streamline our business."*
